

August 2019

**CIB Co-Sponsored Call for Abstracts FINAL DEADLINE
BEYOND 2020, World Sustainable Built Environment
(WSBE) Conference**

YOU STILL HAVE TIME!

Submit your abstract by **31st August 2019** to the next World Sustainable Built Environment conference.

The Organising Committee of BEYOND 2020 would like to say **THANK YOU!** To all those of you who have submitted a scientific abstract to BEYOND 2020.

We have been happily overwhelmed with nearly 750 contributions and felt honored to be asked to postpone the deadline by researchers from all over the world.

We are therefore proud to announce that the very **FINAL CALL** for abstracts is open until **31st August** – a good chance for late holidaymakers to finalize their abstracts and for us to increase even more the scientific quality of the conference!

Choose among the following 20 conference scientific topics:

- Social inclusion for liveable societies
- Sustainable management of terrestrial and inland ecosystems
- Urban planning and design
- Urban transition - from the current state to a future state
- Design for hope
- New governance approaches for a sustainable built environment
- Life-long learning for all
- Sustainable businesses and economic models
- Digitalization for responsive cities
- Management and leadership
- Energy systems for the future
- Climate change mitigation and adaptation in the built environment

- Urban metabolism and circularity
- Health, comfort and well-being for a better life
- Housing for all
- Resilient transport systems and mobility solutions
- Architectural morphology
- Technology and material innovations
- Promoting green and blue structures for sustainable living environments
- Transformation and conservation

The Scientific Committee is seeking contributions that can help in reaching the overall ambition of the conference: to collectively formulate a transformational plan and a set of commitments for the built environment to support the implementation of the UN Sustainable Development Goals.

More information about the abstract submission is to be found [here](#).

The contributions being sought need to address identified challenges and demonstrate approaches and innovations that begin to solve these challenges.

Information & Contacts

For more information about BEYOND 2020 you can visit the conference website [at this link](#), follow BEYOND 2020 on [LinkedIn](#), [Twitter](#) and [Facebook](#) and sign up for BEYOND 2020 newsletter [at this link](#).

SBE Conference Series

This Conference is the world edition of the 2018-2020 SBE Series. More information of this series is to be found [here](#).
