Short CV

Subashini Suresh is a Reader of Construction Project Management at the School of Architecture and Built Environment, University of Wolverhampton.

She is the Athena SWAN Champion for the School of the Architecture and Built Environment. She has been a Post-Doctoral researcher, lecturer, senior lecturer and principal lecturer. She was seconded as an Associate Professor at the Bradley University, United States of America from January 2009-June 2009 and also has lectured in India for a brief time.

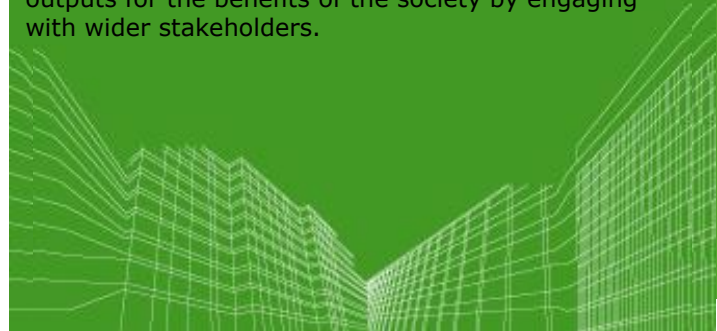

Overall, she has 20 years of research, teaching, consulting and industry experience in a wide range of construction management subject areas. She has over 150 publications and worked on more than 30 research projects. The project's cost range from €1,200 to £850,000 (approx. €1 million). Under her supervision, 10 PhD students have successfully graduated.

Her key areas of interest are: Knowledge management, Building Information Modelling, Health and Safety, Sustainable construction, Risk management, Emerging technologies, Quality management, Leadership in change management initiatives, Organisational competitiveness, Business process improvement, Lean construction, Six Sigma leadership and Soft computing.

Personal Statement

I am delighted to be appointed as a Joint Co-ordinator of CIB W102. The role of information and knowledge is key for the development and sustainability of the construction industry.

I look forward to work with Co-ordinator Professor Charles Egbu and the members of the commission on its vision, objectives and scope in order to deliver the outputs for the benefits of the society by engaging with wider stakeholders.
